Operation Jaeger

Observe Everything

Unknown Entities

Unknown entities are unexplained presences that are of unknown origin or motivation.

A great many unknown or unexplained entities have been recorded over the centuries.

While the government has not formally released a list of recorded entities to the public, a list does exist.

Task

- Given the list of entities listed in the references section, develop a database for listing and accessing unknown entities.

- Your development team will concern itself with designing and developing a system for listing these entity sighting.

Requirements

- A page listing all entities

- A page that shows an individual entity

- A page that lists all locations entities are recorded

- A page that lists all sightings for a given location

- A page that lists all dates an entity was sighted

Resources

- Mothman

- The nameless thing of Berkely Square

- The Entity of Tsarichina
